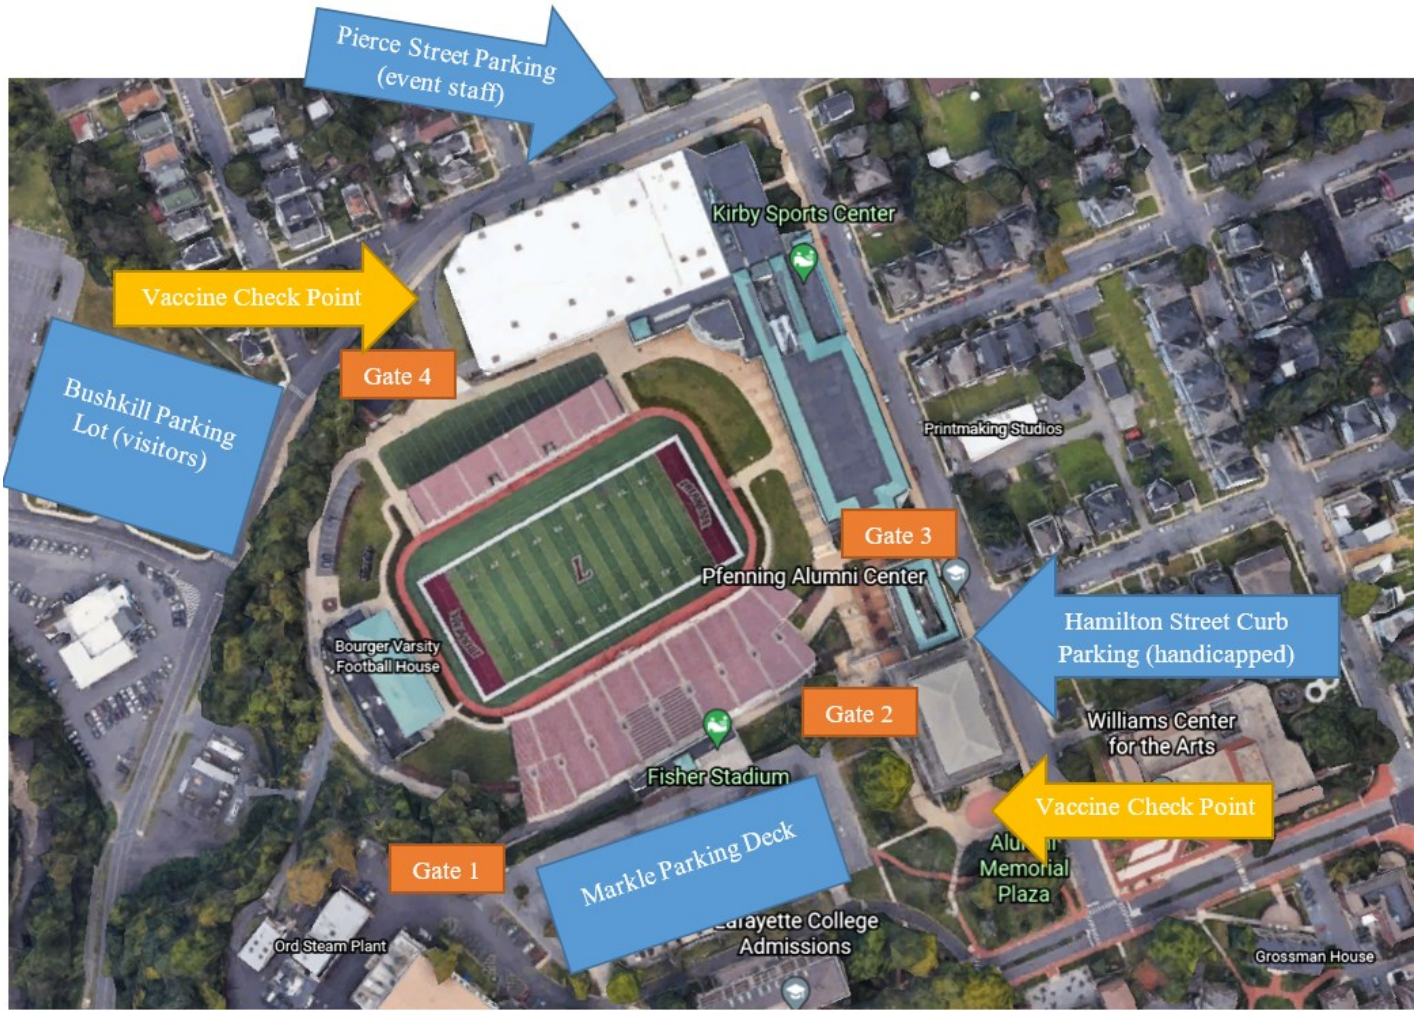
COVID-19 Policies & Procedures

Much like other organizations nationwide, Lafayette is **requiring proof of vaccination or a recent negative test from visitors to campus** for admission to on-campus events (excluding classroom activities) effective Sept. 20.

- Visitors to campus must show proof of COVID-19 vaccination or a recent (within 72 hours) negative test to attend events and gatherings (20 or more) on campus. This includes all athletic competitions and Williams Center performances. Children ineligible to receive the COVID-19 vaccine are permitted to attend events and are expected to be masked at all times.


All visitors are expected to follow campus health and safety guidelines, including the masking requirement (expected indoors at all times and outdoors when in group settings including classes).
